(TMI Focus, Vol. XVIII, No. 2, Spring 1996)

QUARTERLY TAPE

The Miraculous Principle

How many times have you heard the axiom that priceless treasures are to be found in our own backyards? Sometimes they are even closer—at the very center of our being. In the second installment of *SHORT JOURNEYS*, flowing Hemi-Sync® sound patterns and soothing narration become your treasure map. For a little while, detach from the messages of the physical senses. Discover that the brightest star is within you and follow that star.
